From: Commanding Officer, U. S. Naval Facility Da Nang, RVN  
To: ENS Clyde C. LOPEZ, USN, 711545/6461

Subj: Letter of Commendation

1. During the period 22 April - 30 May 1970 you participated in a COMSEC (Communication Security) survey of SEAFLOAT operations being conducted in the Ca Mau Peninsula region of the Republic of Vietnam in an effort to protect vital allied counterinsurgency and pacification activities in that area. In spite of the austere living conditions and constant threat of enemy attack which you and the other members of the COMSEC Survey Team encountered, you obtained information which formed the basis for significant improvements in the communication security posture of SEAFLOAT operations.
2. The Commander, U. S. Naval Forces Vietnam and Commander, Naval Security Group Command have indicated that the COMSEC Survey in which you participated was outstanding in its content and value. The Survey will be incorporated among training materials to be used in formal COMSEC training programs. By your participation in this important project, you have made a vital contribution to the U. S. Navy communication security program in Vietnam and significantly assisted in operations against Communist aggressors.
3. On behalf of the Commander, U. S. Naval Forces Vietnam and Commander, Naval Security Group Command, it is my pleasure to commend you for your role in this project. WELL DONE!
4. A copy of this letter will be placed in your official record.

  
G. L. JACKSON
