Subj: COMSEC Training Visits

1. A COMSEC training visit was conducted for three Registered Publications System accounts of this command on 11 November 1970. It is noted with pleasure the effectiveness these training visits had in aiding the administration of our accounts. The inspection team was both thorough and competent exhibiting a high degree of professionalism our services respect and honor so much.
2. Ensign C. R. LOPEZ and CTC D. W. POLK are commended for conducting a courteous and complete visit. Both gentlemen capably identified problem areas that easily could have evolved into major discrepancies.
3. Please convey to both gentlemen my sincere appreciation for their straightforward and realistic evaluation and a job well done.

A. J. ARMSTRONG
